Berserkir:

These may be selected instead of Knights in any Viking force.

Regardless of how the figure appears, Berserkirs in "Sword & Dagger" move as if unarmoured, count as if wearing LA if attacked, and attack as if using a Polearm.

All Berserkir figures therefore costs the same as "Knight (3pts) LA (3pts) PA (2pts)".

Selecting a Berserkir replaces one of your force's Knights and takes up one of your force's allocation of Polearms.

Berserkirs may also be equipped with small shield (+1/2 pt) or large shield (+1pt) at the player's discretion.
